

BT Global Growth Inc.

A Montreal based firm founded in 2006 by two financing business executives with over 20 years of Global investment experience. A highly cohesive team that understands how to manage money in the unique way of analyzing Global investment themes using cash flow/value style analysis while finding overlooked names at compelling entry prices. The firm is long biased but spends most of its time looking for short/hedging opportunities. The firm has a disciplined buy/sell process and liquidity guidelines that are strictly enforced. The company has the philosophy of not using leverage to achieve performance and have delivered strong returns since inception.
